QUOTATION #25224150

** REVISED QUOTE **

Please find the attached quotation for your forthcoming software maintenance term. Keeping your maintenance current helps you stay up-to-date with the rapid advancements in GIS technology, and provides you with tools that enable you to be more successful while using ESRI software. For details about the maintenance program benefits for your licensing, please visit <http://gis.esri.com/software/maintenance/qualifying.cfm>

Customers who have multiple copies of some ESRI products may have the option of supporting some of their licenses with secondary maintenance. Secondary maintenance entitles users to software upgrades and technical support through a primary license. Users must support at least one primary license for every ten copies of each version of a product (e.g., ArcView 3.x licensing is regarded as separate from ArcView 9.x). Please contact Customer Service to find out more about the availability of secondary maintenance.

If you are using ESRI products that are at previous versions, or if you have software that is not currently covered by one of our programs, please contact us for information about the different options that are available to you.

Do you need training? You can get affordable ESRI software training for your entire organization with a subscription to ESRI Virtual Campus. To find out how, visit the campus: <http://campus.esri.com/campus/catalog/subscriptions>

If you have any questions or need additional information, please contact Customer Service at 888-377-4575.
